What to do before AZS Staff arrives on your big day:

1. Remember in photos & video, your "getting ready space" will look exactly as it is in real life. Keep this space clean & organized. We recommend you get ready in the room with the most natural light.
2. Eat, and drink plenty of water before we show up. It's a very long day and it will be many hours before you have the chance to eat again.
3. Hang your tuxedos in your "getting ready space" prior to staff showing up.
 - a. Remove all garment bags and try to limit clutter.
 - b. Use special name hangers if you have them.
4. All details should be in one area ready for your photographer when they show up.
 - c. Example: shoes, rings, flowers, watches, cuff links, invitation, etc.
5. Flowers need to arrive at ____:____ so they can be utilized in photos.
6. Flower girls & ring bearers can be ready with all of the wedding party OR ready later on depending on their ages and attention spans. (This is up to you.) If their parents are in the wedding party, have someone else designated to watch them, so that we don't lose members of your wedding party.
7. Do you want to do a Dad first look? Yes No ____:____ / _____
